BRAINERD GREETES MINNEAPOLIS SHRINERS

ZUHRAH TEMPLE'S DIVAN IN THE CITY ALL DAY SUNDAY

SPECIAL TRAIN OF EIGHT CARS
TO ARRIVE AUG. 26 AT 9 A.
M. FROM NORTH

ILLUSTRIOUS POTENTATE AC-
COMPANIED BY TEMPLE
MEMBERS, BAND, ETC.

One hundred and fifty Shriners from Zuhrah Temple of Minneapolis, including their internationally famous band, drum corps, patrol and chanters, will visit Brainerd on Sunday, Aug. 26th.

The Minneapolis Shriners are making a booster trip into Northern Minnesota for their temple and city. They will travel on a special train of eight cars.

A. A. D. Rahn, Illustrious Potentate, will head the Zuhrah contingent. He will be accompanied by the members of his official divan, members of the temple and a 40 piece band, a 30 piece drum corps, a patrol of 30 members and 30 chanters.

The band which is directed by Noble Wallace C. McWhinney is known as one of the finest bands in Shrinedom. Noble N. L. Van Tilburg captains the famous Zuhrah drum corps, which won international recognition on the recent pilgrimage of Zuhrah Temple to Washington and on their return home thru Canada.

The Zuhrah patrol is directed by Captain A. M. Shuey, its veteran leader, who was the father of the patrol in the Shrine. Throughout Shrinedom, Captain Shuey is known as the "grand old man." How widespread his patrol idea has grown is proved by the fact that not a Shrine Temple in the United States or Canada is without its patrol.

The Zuhrah Chanters, known as the "sweet singers of Shrinedom" are directed by Noble W. S. Marshall. During the Zuhrah pilgrimage to Washington, the Zuhrah Band and chanters were the only organizations honored by having the late President Harding and Mrs. Harding attend their sacred concert at the Calvary Baptist Church. At that time the president praised the two organizations highly to Potentate Rahn.

Besides the four uniformed organizations the Minneapolis Shriners are carrying along with them the famous Pullman quartet, four sleeping car porters, who can sing.

The Minneapolis Shriners are making a four day tour of Northern Minnesota, visiting Zuhrah Temple and Minneapolis. They left Minneapolis Thursday, August 23, at 4:45 P. M. in a special train over the Great Northern railroad, the first stop being at St. Cloud at 6:30, where the contingent paraded.

The second stop was Sauk Centre, which was reached at 8 P. M. Thursday. The Shriners gave a brief program there and then went to Alexandria, which was reached at 9:15 P. M. A short program was arranged there by Potentate Rahn.

The longest stop of the trip was made Friday, Aug. 24, at Fergus Falls where the Masons of Fergus Falls and surrounding territory held a big picnic, celebrating the opening of the pavement. The Zuhrah contingent reached Fergus Falls early in the morning and did not depart until 5 P. M. The Fergus Falls program called for free entertainment on the downtown streets in the morning and at the fair grounds in the afternoon.

Wadena was visited late Friday afternoon. In the evening the Zuhrah men were at Staples, reaching there at 8:15 P. M. and leaving there at 10:30 P. M.

Saturday found the Zuhrah boosters at Park Rapids, Walker and Bemidji. Park Rapids was reached at 9:30 A. M. After a two hour stop the Minneapolis contingent went to Walker, reaching there at 11:30 A. M. Concerts by the band, drum corps and chanters and drills by the patrol were given at Park Rapids (Turn to Page 6)

SAVED HIS MATCHES ANYWAY IN 13 DAYS' WANDERING IN WOODS

(By United Press)
Ishpeming, Mich., Aug. 25.—After wandering 13 days in the woods near Silver Lake, fearing to use matches or cook food he carried because of danger of setting the forest afire, William C. McKinley, of Rockford, Ill., was found by searchers today.

3 MONTHS BABY GIRL BODY FOUND

LILLIAN MCKENZIE, KIDNAPED
IN NEW YORK, FOUND IN
SCHUYLKILL MARSHES

(By United Press)
Philadelphia, Aug. 25.—The body of a baby girl that answers the description of three-months old Lillian McKenzie, who was kidnaped in New York a week ago, was found in the marshes of the Schuylkill river near here today.

Deputy Coroner Joseph Ward immediately got in touch with New York police, asking that an officer be sent here to attempt to identify the body.

Police believe that the body was left in the marshes about two days ago and died from exposure. A note pinned to the baby's dress read: "Please give baby a home."

Philadelphia, August 25.—After examination of the body of the infant found in the marshes of the Schuylkill river near here today officials of the police department announced that the baby was three-months old Lillian McKenzie, who was kidnaped in New York last week.

"PITTSBURGH PLUS" CHARGE ON GAS

STANDARD OIL TO ABANDON OLD
STYLE FIGURING OF
FREIGHT

(By United Press)
Bismarck, N. D., Aug. 25.—The Standard Oil company has assured Governor Nestos of North Dakota that it will abandon the so-called "Pittsburgh plus" method of figuring freight on gasoline. It was announced today.

Other companies are expected to follow the lead of Standard Oil, and the governor estimated a saving of from one-half to three cents per gallon in this state would result.

It was claimed that heretofore the company, on shipments from Wyoming, has charged for freight from Whiting, Ind., via Superior, and independent companies shipping from Montana and Wyoming charges rates from Oklahoma and Texas.

GOV. PINCHOT CALLS CONFER-
ENCE BETWEEN MINERS AND
OPERATORS AT HARRISBURG

BELIEVED HE HAS CONFIDENCE
OF BOTH SIDES AS A MEDI-
ATOR IN CONTEST

(By United Press)
Harrisburg, Pa., Aug. 25.—The center of interest of the hard coal situation shifted to the Pennsylvania capital today after Governor Pinchot moved swiftly to avert a strike in the anthracite fields September 1.

A call for a conference between miners and operators in Harrisburg Monday was to be sent out by Governor Pinchot as the first move in the eleventh hour effort to prevent a national coal crisis.

The Pennsylvania executive accepted responsibility placed upon him by President Coolidge, confident that he can at least bring both sides together for a final meeting.

Overtures that were made by Pinchot to both miners and operators by the conference at Washington yesterday, it was learned, have been satisfactory and have established the fact that he has the confidence of both sides as a mediator.

In event the conference fails, the governor is vested with sufficient power to seize and operate the mines to prevent suffering of the people, according to legal authorities.

It was learned on highest authority that his steps would be:

1. Summoning persons having influence with miners and operators to Harrisburg for a series of conferences.
2. Examine the mass of information on the anthracite probe furnished

SOLANUM ROSTRATUM IN CHICKEN FODDER SAYS E. L. DORSETT

"One does find strange stuff in his chicken feed at times," says E. L. Dorsett who has a farm north of Brainerd, and as proof he brought in a potted "Solanum Rostratum," a prickly affair with leaves like a denatured potato and blossoms of a yellow, tomato-like affair.

The plant is one of the toughest looking customers any man saw outside of the Texas cactus plains. It was diagnosed by County Agent E. G. Roth who said, in plain English, that it was a "Buffalo Bur" or "Prickly Night Shade."

Mr. Dorsett has eradicated several of the pest and advises farmers and poultrymen to keep an eye on them, as they multiply like rabbits if left alone.

SOFT COAL MINERS MAY TAKE "VACATION"

Atlantic City, Aug. 25.—Telegrams of encouragement from bituminous mining sections poured into union headquarters here today as the anthracite mine chief proceeded methodically and deliberately with all arrangements for a strike September 1.

John L. Lewis, president of the United Mine Workers, has received information from bituminous leaders in many sections assuring him that the men in the coal fields will stand behind him.

The bituminous miners have a contract with their employers but it is possible that many of them might go on "vacations" if their product (Turn to Page 3)

PROHIBITION CHIEF H. L. DUN-

NORTHWEST DRUGGISTS

CLAIMS THAT SOME OF THE DOPE
IS REDISTILLED 'BODY RUB'
ALCOHOL

(By United Press)
St. Paul, Aug. 25.—H. L. Duncan, prohibition chief for five Northwest states, today charged that a big percentage of druggists in northwestern states are becoming plain bootleggers.

Chemical analysis of liquor sold by many druggists has showed that it contains ingredients which are present only in re-distilled "body rub" alcohol, he said.

In one St. Paul junk yard, he said, Federal agents found enough cartons and bottles which had contained body rub to fill 52 freight cars, and in another junk yard they found enough to fill 10 cars.

This does not mean that St. Paul is necessarily the center for redistillation, but may be due to the fact that the St. Paul junk dealers pay highest prices for the bottles.

SAYS WHEAT FARMERS MUST TAKE LOSSES

(By United Press)

AIR MAIL ACE RACES WITH DEATH

JACK KNIGHT FLIES FROM CHEY-
ENNE TO BUCHANAN, MICH.,
TO SEE DYING FATHER

(By United Press)
Buchanan, Mich., Aug. 25.—Jack Knight, "ace" of the Cheyenne-Omaha air mail division and hero of the transcontinental trials, today won another race—this time with death. Knight received word in Cheyenne last night that Dr. M. M. Knight, his father, was in a dying condition here. He started here to the bedside at 6 p. m.

The flight to Omaha was negotiated in five and one-half hours. He arrived there at 11:14 p. m. and hopped off for Chicago 14 minutes later. He paused there long enough to refuel and adjust his engine, and arrived here at 6:22 a. m., making the trip from Cheyenne in 12 hours and 22 minutes for the 975 miles.

The elder Knight was still alive when Jack arrived.

KILLED A MAN FOR ONLY \$515

JENSEN AND GALLOWAY CON-
FESS TO KILLING ROBERT
JAEGER

(By United Press)
Madison, Wis., Aug. 25.—A little over \$515 was the price of Robert Jaeger's life.

After a night of futile search along the shores of Lake Mendota for the treasure that they had stolen from the aged recluse, the two confessed murderers, Alvin Jensen and Jack Galloway, admitted that the roll of \$515 was hidden behind a barrel in the paint shop where they were employed.

For 12 hours the two confessed murderers had kept officers puzzled about the location of the cache. As they were passing the paint shop after abandoning the search both suddenly confessed that the money was hidden there.

Jensen Adds to Confession

Baraboo, Wis., Aug. 25.—Returned to jail here early this morning following an all-night search for Robert Jaeger's gold, Alvin Jensen is reported to have confessed striking the blow which killed the aged recluse on the night of Aug. 2.

He denied part of his earlier confession, in which he said Jack Galloway, held as his accomplice, dealt the death blow.

Jensen explained the crime in detail and related how they had waited outside the house watching him pace back and forth before they lured him out of the house to his doom.

FIVE BOYS UP ON BURGLARY CHARGE

St. Paul, Aug. 25.—Five boys, all in knee pants, and each of them 12 years old, faced charges of burglary when arraigned in juvenile court today.

The boys confessed to police when they were arrested yesterday that they stole money from several business establishments in St. Paul recently "just for fun."

The boys said they had stolen money and then went out to have a "good time" spending it. They spent all of it for refreshments and movies. The total amount of money obtained, they said, was \$55.

BLAZING STREAMERS, SHOWERS OF FIRE, SPLASHES OF COLOR

EVENING ENTERTAINMENT IN-
CLUDES "MYSTIC CHINA"
AND "VERDUN"

BRAINERD BALL TEAMS TO PLAY
—WONDERFUL SHOWING OF
SOIL EXHIBITS, ETC.

"Don't miss the fair this year" is the slogan used by the Crow Wing County Agricultural society, in charge of the county fair at Pequot, August 29, 30 and 31.

And judging from the program that will be rendered, the advice is worth heeding, for the attractions at Crow Wing county's fair this season will far eclipse anything that has previously been attempted.

Evening Programs Innovation

An innovation this year will be the evening programs on the first two nights. Heretofore, only morning and afternoon sessions were staged, but for the benefit of Brainerd residents who cannot get away for these programs, the evening arrangements have been made. They offer attractions which should draw just as large crowds as the afternoon sessions.

Among these attractions are the spectacular fireworks, the same ones that made such a decided hit at the state fair in 1922. On the first night of the fair, Wednesday, August 29th, the great spectacle, "Mystic China," will be presented, and on the next evening, "The Battle of Verdun."

In addition to these giant spectacles, there will be other beautiful fireworks, dazzling gyrators, glittering stars, thunderous batteries, trails of liquid fire, will paint the sky with literally tons of fireworks of every conceivable description. Novel features never before attempted will be included in these nightly displays.

Novel Pyrotechnics

The Thearle-Duffield Fireworks Co. has the contract for this evening program, and will put on nearly two hours of displays each evening. This company is conceded to have the most novel ideas in pyrotechnics now being featured. Most of the state fairs last season used its programs, and will continue that policy again this year. The Crow Wing County Fair was very fortunate in being able to place a contract for these fireworks.

New Lighting System

A new lighting system has been installed on the grounds this year, which will afford the evening visitors the same opportunity to view the many exhibits as those have who come in daytime.

The directors of the fair want it understood that the daytime attractions have not been robbed to make the night programs. Rather they have been strengthened for the benefit of those who cannot come in the evening. There will be races, ball games, airplane flights, a chicken catch for the ladies. The Brainerd base ball team will play on the first two days.

Fine Exhibits in All Departments

It is believed that the exhibits in all departments will be much better, both in quality and in quantity, than at previous fairs. The cream of these exhibits will be taken to the state fair, where Crow Wing county will have a booth.

Charles F. Anderson has returned from Galesburg, Ill., where he went as a delegate from Brainerd to the North Star society. He reports a very good convention and a pleasant time.

He was just a rich, profane old man with a terrible temper. Till a slick young fellow stole a \$400,000 diamond from him and tried to steal his pretty granddaughter. Then Grumpy smiled and came to life.

\$7,607 PRIZE LIST

Offered by Horticultural Department of State Fair and Dairy Exposition

Prizes offered by the horticultural department of the Minnesota State Fair and Northwest Dairy Exposition September 1 to 8, will total \$7,607, according to announcement of Superintendent J. V. Bailey, of Dayton's Bluff today. This is an increase over the prize list of a year ago, and represents the most money ever offered for that department by the state fair.

The fruit show is given \$2,473.25, the most of which will be given to apple exhibitors. The division of flowers is offering \$3,077.75. The sum of \$2,056.00 is offered for vegetables. Feature exhibits are to be made in all three departments.

The entire Horticultural Building is to be re-modeled inside for the exhibition this year. Last year, at the National Dairy Show, when the Horticultural Building was used for the Healthland of the National Dairy Council, it was changed about completely inside. In putting it back in shape this year, changes are to be made throughout the building, and visitors are promised a real treat in the re-arrangement.

Entries for the horticultural exhibit close. Monday, August 27, for fruits, flowers and vegetables. Rules governing the show, explained in the new 1923 premium list of the fair, may be obtained by writing to J. V. Bailey, Superintendent of the department, Dayton's Bluff, Minnesota.

Beyond a Doubt

Why take medicine for paralysis when it has been demonstrated beyond a doubt that such is caused by impinged (pinched) nerves? Don't go on through life in a paralyzed condition of body when the Chiropractor by means of Chiropractic Vertebral Adjustments, given with the bare hands alone, will relieve that nerve pressure. AMUSEMENTS

"Sixty Cents an Hour" Great

Walter Hiers, star of the Paramount comedy, "Sixty Cents an Hour," which opened at the Lyceum Theatre last evening, is a genuine comedian, as the fine reception accorded the picture amply proves.

This comedy is bright throughout and scampers along merrily to a unique finish. The story is that of a soda-jerk, a fat young man working for a slim salary. One of Jimmy Kirk's ambitions is to take Mamie Smith, daughter of the bank president of Zavina, out for an automobile ride. When he hires a touring car at the rate of sixty cents an hour, the whole family pile in, and Jimmy's day is spoiled. His second attempt, however, is much more successful, for this time he gets a roadster and rides off in triumph.

It is showing for the last time tonight.

Hergesheimer's "The Bright Shawl,"

Screened by Barthelmess, One of Year's Biggest

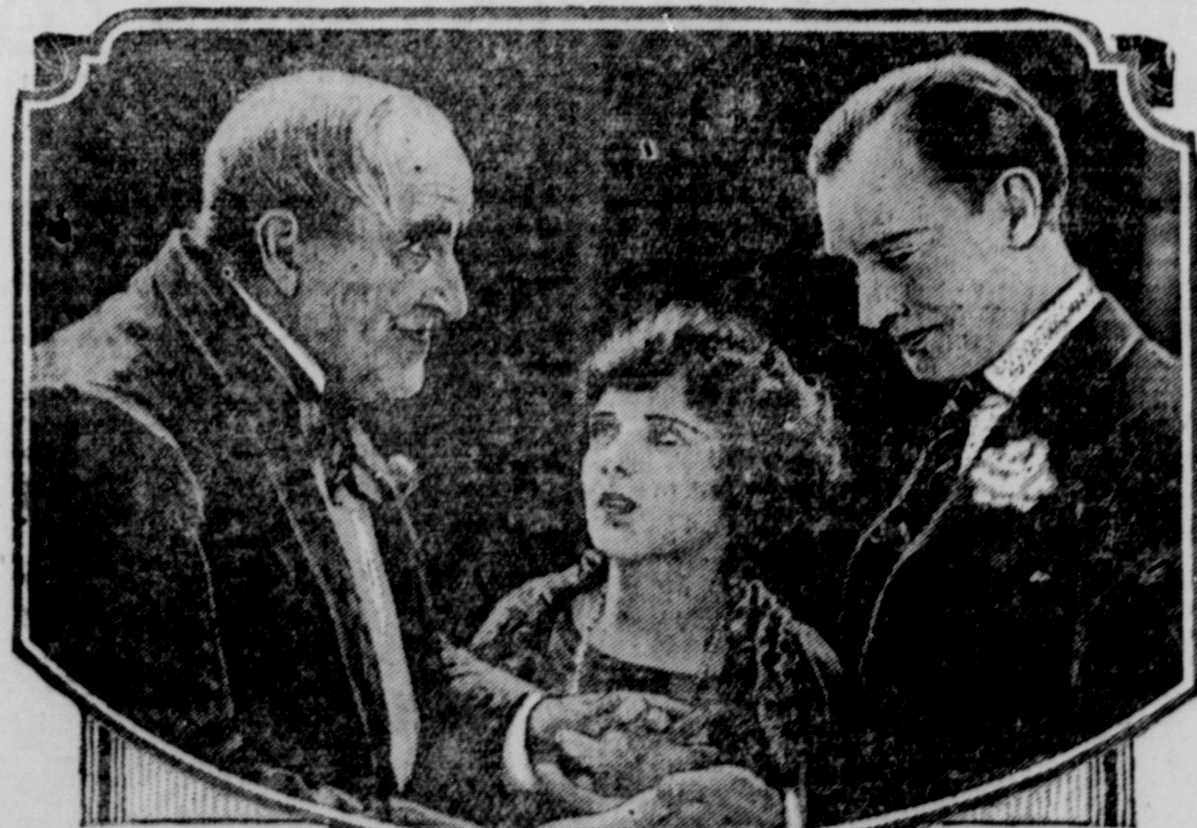

Richard Barthelmess has given to the screen another classic of the silent drama.

Greater even than his former mas-

terwork, "Tol'able David," is his new contribution, "The Bright Shawl," which is the First National picture presented by Inspiration Pictures at the New Park tonight and Sunday. Adapted by Edmund Goulding from Joseph Hergesheimer's colorful story

Richard Barthelmess and Mary Astor in "The Bright Shawl"

Theodore Roberts, May McAvoy and Conrad Nagel in the Paramount Picture "Grumpy" A William deMille Production

At the Lyceum Sunday

of the days when Cuba was still under the yoke of Spanish tyranny, it is one of the most charming, vivid and moving romances yet presented on the screen.

The hand of a craftsman is seen in the direction by John R. Robertson, while the picture itself is the last word in photography.

Barthelmess has the role of a young American, Charles Abbott, who, on a visit to Havana, becomes so tremendously interested in the cause of the downtrodden Cubans that he decides to espouse it.

Dorothy Gish contributes perhaps the finest screen performance of her career as La Clavel. Anders Randolph is superb as the villainous Santacilla, while Mary Astor makes an altogether charming Narcissa. Others who add to the histrionic qualities of this unusual picture are Jett Goudal as La Pilar, William Powell as De Vaca, Andre de Beranger, E. G. Robinson, Margaret Seddon, Louis Alberni and George Humbert.

Vaudeville at the New Park Saturday and Sunday

The Imperial Duo, a high class musical act will be the attraction at the New Park this week-end. These boys play the accordion and banjo and are very clever.

Theodore Roberts made a great sacrifice to art when he made up for his featured role in "Grumpy." William de Mille's Paramount production, which comes to the Lyceum Theatre Sunday. The sacrifice consisted in shaving off most of his eyebrows.

Flappers' "Free" Verse

On Free Dress Wins First Clash in "War"

Somerset, Pa., Aug. 25.—This little city of Somerset has somersaulted into a style class war with the bobbed hair, lip stick waving flappers arranged on one side and their sisters of long tresses and silk stockings on the other.

The first clash took place yesterday when the Parents and Teachers association formally indorsed the "old-fashioned girl" and took steps to petition the school board to adopt a uniform style of dress for all school girls. The rules would bar silk hose, short skirts, bobbed hair and low neck, sleeveless dresses.

But, the flapper contingent hearing of the meeting, stormed it. Their verbal protest delivered in rhyme was as short and snappy as the dress and the manner of the flapper who

delivered it:

"I can show my shoulders,

"I can show my knees;

"I'm a freehorn American

"And can show what I please."

With that the flappers left while the Parents and Teachers session was turned into an indignation meeting.

Action on the dress question will be demanded of the school board, the parents and teachers decided.

was used in an effort to break the anthracite coal strike.

Lewis was still ill in his suite, but he directs affairs from his bedside. He told Philip Murray, first vice-president of the United Mine Workers, to summon the scale committee of nearly 40 union leaders into a conference. This conference decided that no maintenance men were to be kept in field unless operators sent a special request to union heads. If maintenance men are not kept in the mines it is likely that great loss will result to operators. Usually in cases of suspension maintenance men are kept on duty, although it is possible that such an agreement will be worked out yet.

Lewis is sticking to his demand that there must be a 20 per cent wage increase, adoption of the check-off, and official recognition of the United Mine Workers. He has insisted that his miners will take no less.

Reports, however, are persistently in circulation that operators may step in and offer to grant a lesser wage boost, something like 16 per cent. If this is done, the conference may be resumed.

MINERS, OPERATORS ACCEPT PINCHOT INVITATION

Atlantic City, N. J., Aug. 25.—Miners and anthracite coal operators today received and accepted Governor

Pinchot's invitation to meet in Harrisburg with him next Monday.

While official copies of the invitation had not been received, both sides had copies of Governor Pinchot's message.

John L. Lewis, president of the United Mine Workers, was the first to issue a statement, leaving a sick bed to consider the invitation.

In announcing that miners will attend the conference, Lewis made it clear that it did not change the miners' position.

Operators' representatives were out of town but their representatives immediately got in touch with Samuel D. Warriner by long distance telephone and said Warriner announced the operators would accept.

Lewis in his statement said: "The miners' representatives accept Governor Pinchot's invitation. This acceptance does not mean any suspension of present plans for carrying out the suspension of work on September 1. Neither does our acceptance imply any change in the attitude of workers' demands upon operators."

"As a mark of courtesy to Governor Pinchot and appreciation of public interest we are quite willing to attend a conference and give our attention to anything the government may suggest."

This acceptance was the first break in the deadlock since negotiations were broken off here.

AIMS TO INSURE CONTINUED MINING

Harrisburg, Pa., Aug. 25.—Governor Pinchot today sent telegrams to the four presidents of the anthracite miners' organizations and four of the operators, asking them to meet him here Monday at noon for a conference to "insure the continued mining of anthracite."

"We do not believe the last word has yet been said," the governor wired.

"The safety and welfare of the people of Pennsylvania and other anthracite using states makes it of vital importance that mining shall go on. This is my justification for asking you to come," he added.

The telegram was addressed to Thomas Kennedy, C. J. Golden, Rhinoceros Capellini and John L. Lewis for the miners and S. D. Warriner, W. J. Richards, W. W. Inglis and A. B. Jessup for the operators.

"Will you meet at the capital in Harrisburg on Monday, August 27 at noon to consider whether the best interests of miners, operators, and the general public, both in Pennsylvania and in other states, can be protected by insuring the continued mining of anthracite," the telegram read.

of the days when Cuba was still under the yoke of Spanish tyranny. It is one of the most charming, vivid and moving romances yet presented on the screen.

The hand of a craftsman is seen in the direction by John R. Robertson, while the picture itself is the last word in photography.
Barthelmess has the role of a young American, Charles Abbott, who, on a visit to Havana, becomes so tremendously interested in the cause of the downtrodden Cubans that he decides to espouse it.

Dorothy Gish contributes perhaps the finest screen performance of her career as La Clavel. Anders Randolph is superb as the villainous Santacilla, while Mary Astor makes an altogether charming Narcissa. Others who add to the histrionic qualities of this unusual picture are Jetta Goudal as La Pilar, William Powell as De Vaca, Andre de Beranger, E. G. Robinson, Margaret Seddon, Louis Alberni and George Humbert.

Flappers' "Free" Verse On Free Dress Wins First Clash in "War"

Somerset, Pa., Aug. 25.—This little city of Somerset has somersaulted into a style class war with the bobbed hair, lip stick waving flappers arranged on one side and their sisters of long tresses and silk stockings on the other.

AMUSEMENTS

"Sixty Cents an Hour" Great

Walter Hiers, star of the Paramount comedy, "Sixty Cents an Hour," which opened at the Lyceum Theatre last evening, is a genuine comedian, as the fine reception accorded the picture amply proves.

This comedy is bright throughout and scampers along merrily to a unique finish. The story is that of a soda-jerk, a fat young man working for a slim salary. One of Jimmy Kirk's ambitions is to take Mamie Smith, daughter of the bank president of Zavina, out for an automobile ride. When he hires a touring car at the rate of sixty cents an hour, the whole family pile in, and Jimmy's day is spoiled. His second attempt, however, is much more successful, for this time he gets a roadster and rides off in triumph.

It is showing for the last time tonight.

THE PRESIDENT'S ADVISERS

PRESIDENT COOLIDGE is surrounded by a great crowd of advisers and he has proved to be a good listener. He listens so well that those who leave his presence are convinced that he agrees with their advice and is ready to act upon it. When such advisers are questioned they are compelled to admit that the president said nothing that proved that he intended to follow the advice offered. His sympathetic hearing was responsible for the impression that he was strangely impressed by what was said to him by his caller.

The president has been advised that he should get out among the people, and just about the time when certain advisers believed that he would do this, the president made the announcement that all of the engagements made while he was vice president had been cancelled. The army and navy believes that he will support an extension of the forces while other sources of information assure the people that he will stand for a policy of strict economy.

Already President Coolidge has proved that he will reach his own conclusions. He is ready to listen to various opinions but after hearing these expressed he will decide which policy he is to pursue. The president's future depends upon his choice of policies and his real value depends upon his statesmanlike choice of the best policies whether or not they serve his own political fortune. President Coolidge will not gain the good will of the people by mixing with them so surely as he will gain their favor if he serves them well as the chief executive of the nation. Henry Ford's popularity does not rest in his association with his fellows but in his achievement in the factories of the Ford Motor company. What the president does will count for more in the end than a great many public appearances.

But how much can the president do? He is limited by the constitution and his decisions cannot be made effective unless they are endorsed by congress, and however statesmanlike the president may be congress is more intent upon politics than statesmanship. President Coolidge will have the opportunity of offering his recommendations to congress in December and he may take a firm stand for those things that a statesman sees as necessary to the welfare of this nation and the world, and if congress does not follow his lead, the people, if they are able to appreciate the president's demands, will approve his policies and deplore the obstructionist tactics of a congress that will not follow the lead of one who is intent upon furthering the best interests of his country and the world.

The president's silence and his strong will may be able to check the tendency to make the world's unrest and misfortune a matter for political and party exploitation. If he does this he will confer a benefit on America and those other nations which, faced by problems that threaten disaster, are troubled by politicians who seek personal ends through the use of disturbed conditions. Political fortunes that are built upon the suffering and distress of the people, whose suffering and distress are used as an argument for keeping apart from any effort to remove their causes, are founded on selfishness and will not long endure. They may be won today, but history will pay little attention to those who win them, for the first law of society, whether of individuals or nations, is not selfishness but service.

FRANCE PUTS IT UP TO THE UNITED STATES

THE president of the United States seems to be in a position in which he can bring influence to bear upon France favorable to an economic conference in which the assets of Germany will be correctly appraised and Germany's payments to the allies definitely and intelligently fixed. France has said that the amount she will collect from Germany will depend upon the amount Britain and the United States deduct from her indebtedness to them. Before the United States or Britain will be in a position to determine how much they are required to deduct, it is necessary to know how much Germany can pay. With this knowledge the United States and Britain would know how much to deduct to balance the account.

By putting it up to the United States in this way France gives this country an opportunity to assert its conviction on the present program of France and the other European allies. The voice of America, on whichever side it may be, will have a decisive effect in Europe, and will lead to some definite attempt to work out a solution of the problems that to Europe appear insoluble.

One of the reasons for the inability of those nations to arrive at a decision that will lead to a rapprochement lies in the fact that their nearness and the clash of their interests leads to suspicion. This is not true of the relations of the United States and the European nations, and America's voice would not speak to nations suspicious of America's intent and, therefore, the voice of the government of the United States would be likely to carry much weight in the councils of those nations which fail to agree on any settled policy for dealing with the vexed questions of Europe.

If the administration asks that an economic conference review the situation in Europe no possible harm could accrue, and the report of the findings of that conference, together with recommendations, could be laid before the senate whose voice must be heard in determining America's foreign policies. If this could be done before the next session of congress in December the peace and prosperity of Europe may be furthered. Month after month slips by and nothing is accomplished that will advance the stabilizing of the nations of Europe, and each fleeting month adds to the gravity of the situation and postpones the time when normalcy will be reached which will further the prosperity of the United States as well as that of the nations that are now seriously depressed as a result of the unsettled conditions.

to efforts to compel those who do not conform to the standards of certain groups to do so under penalty of a rough handling by members of the group, and it is well that the governors of the states in which these things are occurring with frequency should use the forces at their disposal to check such lawlessness. Such expressions of lawlessness are the most baneful witnessed in this country, and yet there is more attention directed towards less serious forms of lawlessness than there is towards these expressions of mob violence.

Anything that breeds religious, class, group or racial hatred in the United States, should be frowned upon by the best citizens of this country, in which a man of any religion, class, group or race is equally a citizen with those of any other religion, class, group or race, when he has lived five years in the country and has sworn his allegiance to the government of the United States. There are those who adopt a slogan, "America for Americans." No fault can be found with it, but if those who use it begin to discriminate they may be advised that their claim is no stronger than a claim that they are the descendants of some alien who came over the ocean at some time in the past. The only Americans who can make good their claim as Americans are the Indians. They were the original inhabitants; all others are the sons and daughters of aliens. It may be well for some of the leaders of such mobs that they cannot see their ancestors.

During the years in which this spirit of intolerance has been fostered, state and federal government have not stood strongly enough for the legal rights of all groups who are citizens of the United States. What ever rights are conferred upon citizens by the constitution should be defended by the government of states and nation against any inroads made by mobs, irrespective of their claims as to the motives and ideals. A citizen who plays into the hands of those who use mob violence, whatever his motive may be, is helping to destroy the ideal of democratic government and, irrespective of who his father was, or of how long his ancestors have lived in the United States, he is not in accord with the principles, purposes and processes of democratic government. He is not an American.

Have 'em Repaired!

Look in your closet today for your shoe cast-offs. If the uppers are good we can make the shoes as good as new at a nominal cost. Mothers should see that their children's shoes are sent to the repair shop this week so that they will be ready for school wear.

You'd be surprised at the good service that still remains in many a pair of shoes that have been thrown away as being of no more good.

Folks who wouldn't think of tossing even a penny into the trash can, sometimes thoughtlessly cast aside a pair of shoes that still have several dollars worth of wear and comfort in them if properly repaired. Don't throw away your old shoes until they have been condemned by your repairman. Be Thrifty—Have 'em repaired.

THE PRESIDENT'S ADVISERS

PRESIDENT COOLIDGE is surrounded by a great crowd of advisers and he has proved to be a good listener. He listens so well that those who leave his presence are convinced that he agrees with their advice and is ready to act upon it. When such advisers are questioned they are compelled to admit that the president said nothing that proved that he intended to follow the advice offered. His sympathetic hearing was responsible for the impression that he was strangely impressed by what was said to him by his caller.

The people of Crow Wing county will have an opportunity to see Boy Scouts in action at the Crow Wing County Fair at Pequot on Thursday and Friday of next week.

A patrol of eight uniformed scouts will leave scout headquarters on next Wednesday afternoon for a hike to Pequot to put on a scouting demonstration the last two days of the fair.

Leaving Brainerd at 2 P. M. they will hike to Nisswa and go into camp for the night, pitching their "pup" tents on the shore of one of the lakes, cooking hunters stew, hot cake, cocoa and with a few roasting ears they will have a real meal before lighting up a big camp fire for the evening "ghost" stories.

Breaking camp early in the morning they will then hike to Pequot, where the Fair association have set aside a space for the making of a regular "overnight" camp, and go into camp until Friday evening.

With tents pitched and ditched and fireplaces made the patrol will demonstrate just how to take care of a camp site when folks are on a tour or camp trip so that our highways will not look like a city dump and the hazards of forest fire will be reduced to the minimum.

During the day there will be demonstrations of knot tying, first aid, signaling and other things to interest the visitors to the scout camp.

The work will be in charge of scout executive E. W. Stimble and the following boys will be taken on the trip: Scouts Elmer Peterson, John Ellison, William Johnstone and Dale Sanders of Troop No. 1, Earl Nelson, Julius Peterson and John Hohman of Troop No. 2, and Eugene Stimble Jr.

The Woodhead Motor Co. will furnish the "transport" for equipment taken to Pequot and transportation will be secured for the boys on the return journey.

Hubert Troop No. 1, under the leadership of Scoutmaster Ernest Cate, was visited by Mr. Stimble last week and is now busy recruiting new members to form two patrols. They will be installed as Troop No. 3, under the Crow Wing County Council and we look for some good work from this troop as they are a live bunch of boys.

Scout headquarters was visited this week by Mr. Clyde Helm, president of the Scout Commissioners of Minneapolis, Mr. E. L. Johnson, assistant executive of Minneapolis, and Mr. Harry Kaplan, advancement director of the Minneapolis Council. They were very favorably impressed with the progressive spirit shown by the citizens of Brainerd in putting over the budget campaign for a first class Council and quite complimentary in their remarks about our new headquarters.

Troop No. 2 has just installed a complete record system for all troop work and Scribe Ben Benson is now getting it ready for the first meeting in September. Ben says they will have to go some now if they keep up with the official requirements.

Well, watch 'em, they can do it. Who has some good pictures taken at camp? Headquarters is anxious to get all the GOOD pictures of Camp "Pug-O-Na-Ge Shig" that are available. For the best picture taken by a scout while at camp we will give an eight months subscription to Boy's Life.

All pictures to be submitted to bear the name and address of the scout, and to have an original title for each picture. All pictures sent in to become the property of headquarters and the best one to be awarded the prize. Contest closes Sept. 10th. All ready? GO!

Serves More Than a Million Homes

Like or Similar to the One Pictured Above

The picture above is of "a family at home on an evening." It is a familiar scene—a happy, contented household. There is Grandmother, devoted, as usual, to her Bible; dear, sweet, untiring Mother, whose "work is never done;" Father, interrupted in the reading of his favorite newspaper by his frolicsome Daughter; Little Sister and her blocks and toys, with her Brother admiringly looking on, while at Father's slippered feet is the Dog, concerned in the playful Kitten, who is getting into mischief with Mother's knitting yarn.

The supper dishes have been washed and put away. The clock (it evidently was Grandfather's) tells us it is just past seven, the evening lamp is lit, there is an inviting dish of apples and grapes on the table, and, to all appearances, the family will be just as pleased if their enjoyment of each other is not "jarred" by callers.

It is a picture of what may be safely described as "an average

American home"—that type of home and household of which the J. C. Penney Company serves more than a million. It is the kind of home, too, that is the life and the sinew of every community in the 33 States in which the 475 Department Stores of this Company are located. It is these homes and the thrift practiced in them, upon which depends the stability of the Nation.

It is these typically American homes that the J. C. Penney Company strives to serve with the utmost help, with the daily personal and household requirements. That notable success has attended the effort, is shown by the remarkable growth of the Company from one small Store in 1902, conducted by Mr. Penney and doing a business of less than \$29,000, to 475 Department Stores, 21 years later, employing considerably more than four thousand men and women and, in 1923, likely to do a business of approximately \$65,000,000.

We Decided to Locate One of Our New Stores Here

only after a very careful investigation of the existing general interests and conditions and the promise of future growth and added enterprises.

It has been said that a great compliment is paid to any community which is decided upon for a new J. C. Penney Company Store because of the assurance of future growth we insist upon. Be that as it may, in deciding to open a Store here it was determined that it should be one that every man, woman and child would be proud of.

In principle, in policy, in operation, in service rendered, in quality of goods provided and in the money savings afforded, our new Store here will—it must—balance with those ideals which have been directly responsible for the unusual success of our long-tested idea of collective buying and selling. Nothing will be left undone to win and merit your confidence.

The many advantages you and your neighbors are to experience in buying from us at our new Store here will, we are sure, win your warmest and most hearty approval and appreciation.

Our All-New Stocks Will Include

Dry Goods, Wearing Apparel, Clothing, Furnishings, Shoes, Notions, Etc.—for the Whole Family—

The supper dishes have been washed and put away. The clock (it evidently was Grandfather's) tells us it is just past seven, the evening lamp is lit, there is an inviting dish of apples and grapes on the table, and, to all appearances, the family will be just as pleased if their enjoyment of each other is not "jarred" by callers.

It is a picture of what may be safely described as "an average

American home"—that type of home and household of which the J. C. Penney Company serves more than a million. It is the kind of home, too, that is the life and the sinew of every community in the 33 States in which the 475 Department Stores of this Company are located. It is these homes and the thrift practiced in them, upon which depends the stability of the Nation.

It is these typically American homes that the J. C. Penney Company strives to serve with the utmost help, with the daily personal and household requirements. That notable success has attended the effort, is shown by the remarkable growth of the Company from one small Store in 1902, conducted by Mr. Penney and doing a business of less than \$29,000, to 475 Department Stores, 21 years later, employing considerably more than four thousand men and women and, in 1923, likely to do a business of approximately \$65,000,000.

We Decided to Locate One of Our New Stores Here

only after a very careful investigation of the existing general interests and conditions and the promise of future growth and added enterprises.

It has been said that a great compliment is paid to any community which is decided upon for a new J. C. Penney Company Store because of the assurance of future growth we insist upon. Be that as it may, in deciding to open a Store here it was determined that it should be one that every man, woman and child would be proud of.

In principle, in policy, in operation, in service rendered, in quality of goods provided and in the money savings afforded, our new Store here will—it must—balance with those ideals which have been directly responsible for the unusual success of our long-tested idea of collective buying and selling. Nothing will be left undone to win and merit your confidence.

The many advantages you and your neighbors are to experience in buying from us at our new Store here will, we are sure, win your warmest and most hearty approval and appreciation.

Our All-New Stocks Will Include

Dry Goods, Wearing Apparel, Clothing, Furnishings, Shoes, Notions, Etc.—for the Whole Family—

Everything at Lowest Consistent Prices!

and Walker. From Walker the special moved to Bemidji, which was reached at 2 P. M. where the rest of the afternoon and evening will be spent. The Bemidji Shrine Club is planning on a big reception for the Zuhrah crowd.

The Zuhrah boosters will spend Sunday in Brainerd where a sacred concert will be given by the Zuhrah Band and Chanters. The special train will leave Brainerd at 6:00 P. M. Sunday, a stop being made at St. Cloud, where another sacred concert will be given. From St. Cloud the special will return direct to Minneapolis.

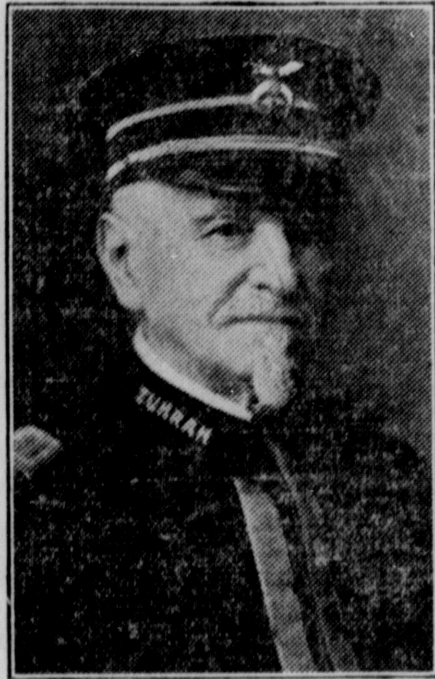

The Minneapolis Shriners are traveling in an eight car special train on the trip, consisting of four sleepers, an observation car, two diners and a baggage car. The special train was operated over the Great Northern from Minneapolis to Fergus Falls, the Northern Pacific from Fergus Falls to Staples and back to Wadena, and the Great Northern from Wadena to Bemidji, and is returning on the Minnesota & International and Northern Pacific from Bemidji to Minneapolis.

All entertainments given are free to the public. Everybody is cordially invited to see and hear the Zuhrah Temple Shriners.

At Brainerd, local Shriners will meet them at the train arriving at 9 A. M. Sunday. All local Shriners are asked to wear their fez.

DR. MILLSPAUGH'S CAR WAS STOLEN

(By United Press)

Little Falls, Aug. 25.—A five-passenger Buick automobile belonging to Dr. J. G. Millspaugh was stolen from his garage here last night.

The license number of the car was B-84,144.

The general store of P. A. Hartman at Pierz, 12 miles east of here, was robbed of 100 suits of clothing shortly after the robbery of the Buick automobile at Little Falls.

Hartman has offered a reward of

\$500 for the recovery of the clothing and the apprehension of the thief.

It is believed that the same bandits robbed both places. Police of surrounding cities have been notified.

REO AUTOMOBILES REDUCED IN PRICE

Detroit, Mich., Aug. 25.—The price of the Reo automobile, touring model, will be reduced \$150 beginning September 9, it was announced at the company's office here today.

The new price will be \$1,335, f. o. b. Lansing, Mich. The present price is \$1,485.

MEREDITH WILL FILE SUIT SOON

(By United Press)

Minneapolis, Aug. 25.—E. T. Meredith, former secretary of agriculture, who has been convalescing here at the Radisson Hotel following an operation for the removal of his tonsils, will leave tomorrow for Des Moines and will instruct his attorneys to file suit against Senator Smith W. Brookhart for 30 cents damages.

Senator Brookhart charged that the former secretary of agriculture was "in the Wall Street gang which brought down prices of farm products and caused ruin to the farmer."

Shown a clipping from a morning newspaper quoting Senator Brookhart as welcoming the promised suit by Meredith, the former secretary of agriculture smiled faintly.

"He will not be so keen about it when the time comes," he said. "When we get him under oath it will be different. I have instructed my attorneys to proceed as soon as I can get to Des Moines."

BABY BROTHER, AGE 8 SHOOT'S SISTER, AGE 4

(By United Press)

Chicago, Aug. 25.—Helen Harvath, 4, was shot to death accidentally today by her brother Charles, 8, while playing "taking the baby's picture" in the Harvath home. The boy took up a supposedly unloaded rifle, and using it as the camera snapped the trigger. The child died a few minutes later. Charles, badly frightened, ran away from home.

The Difference in Advertising is the Difference in Men

Of itself, advertising is little. And the differences in it are the differences which exist in men.

Just as some men are strong and virile and interesting, so is some advertising. And just as some men are ineffectual and weak and boring, so is some other advertising.

"Does it pay to advertise?" It pays those men who are keen enough students of the public to make it pay them. It pays those men who are truthful, sincere, interesting and believable.

It pays the men whose product deserves the payment, whose brains are keen enough to organize for success and judge enough of the human mind to know how to tell their story with sincerity and interest.

So when you judge advertising, judge it by how it is used and by whom—not of itself and of itself alone.

Remember, an ugly man looks just as ugly in a mirror.

CHECKERS ARE COUNTING AUTOS

State Highway Association Keeps Track of Highway Travel at Three Points Near Brainerd

INTERSECTION NO. 2 AND NO. 19
Another Group at 2 and 18, and a Third at the Fredstrom Corner Highway No. 27

Checkers from the state highway department are taking the count of traffic on all state highways leading out of Brainerd.

One group is stationed at the intersection of state highways No. 2 and No. 19, at what is popularly known as the "Two-mile" corner west of the city.

Another group is checking the traffic at the intersection of state highways No. 2 and No. 18, four miles east of Brainerd at the end of the Oak street paving.

The third group is at the Fredstrom corner on state highway No. 27, south of the city, and it is the result of the count on this corner in which Brainerd people are particularly interested.

There has been a great deal of traffic over No. 27 this summer, especially by tourists coming from the south. Very little maintenance work has been done between Brainerd and Belle Prairie this season, because of plans for a new road, the survey of which was made last winter.

It is felt that upon the result of the count of traffic over No. 27 this week, will depend to a large extent whether or not a new road is built and Brainerd people will watch with interest the result of this count.

BUREAU OF MINES RELIEF CAR HERE

Passed Through City From St. Cloud to the Cuyuna Range Territory

COVERS A WIDE DISTRICT

Equipped With Every Conceivable Device to Save Life, W. H. Carick in Charge

The Department of the Interior, Bureau of Mines relief car passed through Brainerd today enroute to St. Cloud from the Cuyuna range.

This car, a fine steel Pullman, covers a district comprising the Northern Peninsula of Michigan, Wisconsin, Minnesota, North and South Dakota. Its work is to assist in mine disasters, mine fires and in rescue work.

When not engaged in such duties, the car is sent over the district for demonstration purposes, going to mining regions and instructing classes in first aid. Classes of both men and women were conducted this week on the Cuyuna range. At St. Cloud workers in the granite quarries will be instructed in similar work.

The car is equipped with every conceivable device for saving life. It has eighteen self-contained oxygen breathing apparatus, used in recovery work in mine disasters, a machine for use in extreme cases of resuscitation, which puts oxygen into the blood by injection.

One of the interesting features of the car is the cage of canaries which is carried. These little birds are capable of detecting the deadly carbon-monoxide gas much quicker than any other animal. They are lowered into the mine in case of explosions to ascertain the presence of this gas.

Further equipment includes a motion picture machine to assist in teaching first aid work, a Delco lighting system for the car, and air compressors for rescue work.

Mining Engineer W. H. Carick is in charge of the car, and is assisted by M. B. Orfield, foreman miner, and B. Brockbank, first aid miner. Earl Moore is cook. The men eat and sleep on the car. They have with them a phonograph which did service in the trenches in France.

MINISTER HAD PLEASANT TRIP

Rev. A. Samuelson of Swedish Lutheran Church Was Well Treated on Auto Tour

EXPENSES PAID ENROUTE

To Get Next to the Soil Ran a Grain Elevator One Day and Ate a Threshers' Dinner

Rev. August Samuelson and family returned Thursday evening from a four-weeks vacation spent in different parts of Southwestern Minnesota, Iowa, and South Dakota.

Stops were made at Milaca, Minneapolis, Lafayette, the pastor's old home, and Dunnell, the former home of Mrs. Samuelson. Here the resident pastor was away, and the church council prevailed upon Rev. Samuelson to conduct the services on Sunday. A liberal collection was taken up which took care of all the pastor's expenses during the thousand mile motor trip which followed.

The longest stop was made at Providence Valley, near Dawson. It is not quite a year since Rev. Samuelson left this prosperous community to accept the Brainerd charge. This year a bumper crop is making the farmers still more prosperous. The Reverend and his family were invited to several "threshing dinners" where the best of the land is served.

On account of the scarcity of help, the pastor volunteered to run a grain elevator one day. Some forty homes were visited and picnics enjoyed at Lake Cochran and Big Stone City. A farewell reception was tendered the Samuelsons' on the last evening of their stay, and all the available space in their car was loaded with the "Good of the land."

Rev. Samuelson reports that southwestern Minnesota is blessed with splendid roads, remarkable for their width and the excellent manner in which they are kept. He regretted the fact that the closer he came to Brainerd, the poorer the roads seemed to become. The stretch between Belle Prairie and Brainerd was the poorest road on the whole trip. "God has given us the lakes and beautiful scenery in Northern Minnesota," said Rev. Samuelson. "But we must build the roads to make this great resource available, especially to the many summer tourists, who are coming in increasing numbers each year."

TO PREACH SUNDAY
Rev. Arthur C. Smith to Fill Local Pulpit, 1st Baptist Church, on Sept. 2

Rev. Arthur C. Smith, the popular pastor of the First Baptist church for the past four years, whose resignation takes effect September 1st will preach Sunday, September 2nd after returning from his vacation.

Rev. Smith will go to Minneapolis the first week in September to take up the work for the Baptist headquarters of the state as pastor Evangelist.

This will be Rev. Smith's last Sunday with the church and the members and friends are cordially invited to attend the services. Everybody is welcome.

Birthday Party
Mrs. P. A. Nelson and son Kermit and Mrs. C. O. Halverson and sons Bobbie and Richard were guests of Mrs. Fred McGee of Crosby, the occasion being the third birthday of little Miss Loraine McGee.

Rev. Smith has been closely connected with the choir work during his pastorate here the past four years and has contributed much with his pleasing voice in solo and concert and will be greatly missed by the choir as well as congregation. It is with exceeding regret that this most profitable and pleasant association of pastor and choir must close.

House Party at Lake
The choir of the First Baptist church gave a house party at the beautiful lake home of Mr. and Mrs. Charles W. Mahlum situated on the banks of Round lake, Saturday afternoon and evening in honor of their pastor and wife Rev. and Mrs. Arthur C. Smith.

Rev. Smith has been closely connected with the choir work during his pastorate here the past four years and has contributed much with his pleasing voice in solo and concert and will be greatly missed by the choir as well as congregation. It is with exceeding regret that this most profitable and pleasant association of pastor and choir must close.

COUNTY HIGHWAY REPORT FURNISHED

County Highway Engineer Walter M. Murphy Reports on All Roads Under His Supervision

STATE ROAD NO. 1 VERY GOOD

No. 2 in Good Condition Generally
—No. 3. To Merrifield and North Reported Fair

For the convenience of Sunday motorists, County Highway Engineer Walter M. Murphy, offers the following road reports of all highways in the county under his supervision. In general, the roads are good, although rain is needed before improvements can be made on them.

State Road No. 1. (13th St. road to Morrison county line) First six miles good, balance to county line, excellent.

State Road No. 2. ("Dewey Highway" running east and west through lower tier of township). In good condition generally. Road narrow, but in good shape for travel. This new highway is much appreciated by farmers along its route, as it shortens the distance to Brainerd, and gives a better road than was available before.

State Road No. 3. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 4. (Crosby, Emily and north to Cass county line). Crosby to Mississippi river, very good. Take old bridge across river, new bridge under construction. Bridge 3 1/2 miles north, very good. Detour to Fairfield town line, good. Balance of distance to Emily very good. Emily to Cass county line, fairly good.

State Road No. 5. (Deerwood, Bay Lake). Deerwood to Bay lake, good. Bay lake to Flint corner on state highway No. 18, good. New road from Bay Lake south under construction, and nearing completion.

White line roads throughout the county, those roads built by the respective townships and maintained by the county, are in general good. These in the southern part of the county, through clay country, are in better condition than those in the north section, where it is more sandy.

State Road No. 6. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 7. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 8. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 9. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 10. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 11. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 12. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

State Road No. 13. (Brainerd, Merrifield and north). Ash Ave., and Mill street, good, to Merrifield, a little rough. Merrifield to Ossipee good, to Cross Lake, excellent. Next three miles, new road under construction, take old road, fair. To Emily, very good.

LINCOLN

MOTOR CARS

There is a pride of ownership which comes instinctively to the man who drives a Lincoln. It is felt that the first mile that the car is driven.

It grows with each succeeding demand upon the performance ability of the motor—the riding luxury of the car itself—until it reaches its fullest realization in a complete knowledge that there is no motoring requirement which cannot be met by this car.

CHECKERS ARE COUNTING AUTOS

State Highway Association Keeps Track of Highway Travel at Three Points Near Brainerd

INTERSECTION NO. 2 AND NO. 19
Another Group at 2 and 18, and a Third at the Fredstrom Corner Highway No. 27

Checkers from the state highway department are taking the count of traffic on all state highways leading out of Brainerd.

One group is stationed at the intersection of state highways No. 2 and No. 19, at what is popularly known as the "Two-mile" corner west of the city.

Another group is checking the traffic at the intersection of state highways No. 2 and No. 18, four miles east of Brainerd at the end of the Oak street paving.

The third group is at the Fredstrom corner on state highway No. 27, south of the city, and it is the result of the count on this corner to which Brainerd people are particularly interested.

There has been a great deal of traffic over No. 27 this summer, especially by tourists coming from the south. Very little maintenance work has been done between Brainerd and Belle Prairie this season, because of plans for a new road, the survey of which was made last winter.

It is felt that upon the result of the count of traffic over No. 27 this week, will depend to a large extent whether or not a new road is built and Brainerd people will watch with interest the result of this count.

Passed Through City From St. Cloud to the Cuyuna Range Territory

COVERS A WIDE DISTRICT
Equipped With Every Conceivable Device to Save Life, W. H. Carick in Charge

The Department of the Interior, Bureau of Mines relief car passed through Brainerd today enroute to St. Cloud from the Cuyuna range.

This car, a fine steel Pullman, covers a district comprising the Northern Peninsula of Michigan, Wisconsin, Minnesota, North and South Dakota.

Its work is to assist in mine disasters, mine fires and in rescue work. When not engaged in such duties, the car is sent over the district for demonstration purposes, going to mining regions and instructing classes in first aid. Classes of both men and women were conducted this week on the Cuyuna range. At St. Cloud workers in the granite quarries will be instructed in similar work.

The car is equipped with every conceivable device for saving life. It has eighteen self-contained oxygen breathing apparatus, used in recovery work in mine disasters, a machine for use in extreme cases of resuscitation, which puts oxygen into the blood by injection.

One of the interesting features of the car is the cage of canaries which is carried. These little birds are capable of detecting the deadly carbon-monoxide gas much quicker than any other animal. They are lowered into the mine in case of explosions to ascertain the presence of this gas.

Further equipment includes a motion picture machine to assist in teaching first aid work, a Delco lighting system for the car, and air compressors for rescue work.

Mining Engineer W. H. Carick is in charge of the car, and is assisted by M. B. Orford, foreman miner, and B. Brockbank, first aid miner. Earl Moore is cook. The men eat and sleep on the car. They have with them a phonograph which did service in the trenches in France.

SPORTS

NEW YORK CITY TAKES TO WILD RIDING

By HENRY L. FARRELL
United Press Sports Editor

New York, Aug. 25.—New York's idea of a first-class sucker is a cow-puncher who dashes wildly around an arena on a pony, jumps from his mount to the back of a steer and wrestles the animal to the ground.

Sophisticated city birds also question the inclination that turns a man into a broncho-buster and a wild horse rider at the risk of life and limb for a prize of a few dollars.

During the recent rodeo, which Tex Austin promoted at the Yankee Stadium, the city-breds got a kick out of the demonstration of far western sports, but they couldn't figure where the percentage of the performers made it worth the while.

If the crowds knew what kind of money the champion riders and bulldoggers make a year out of their sport, there would be no doubts about the motives that inspired them to follow such a hazardous profession.

Some of the riders, and many of them, make from \$10,000 a year upwards, and the time they spend in actual competition is not much more than that of champion boxers.

Their time is divided mostly between the rodeos at Calgary, Pendleton, Cheyenne and Fort Worth, where the "classic" contests of their game are held. New York has taken so keenly to two of them that the country's biggest city may soon be a regular stop on the circuit. Champions at the big rodeos find plenty of work in the exhibition line also.

Mike Hastings, who holds the world's speed record for "bull-dogging," and his wife, Fox Hastings, a champion rider, made \$25,000 between them last year, it is understood.

Fox Hastings is a graduate of a California convent, and it might be considered unusual that she found herself following such a hazardous and rather unique calling.

"I married a cow-puncher, I guess that's the principal reason I am in the game," she said, when asked how she had been attracted to the profession. "Going around with Mike, I got to riding. I liked it, and here I am."

Weissmuller Wins Two Events in Comeback

Indianapolis, Ind., Aug. 25.—Showing the same form that won him the title as world's greatest swimmer, Johnny Weissmuller of Chicago celebrated his return to the sport by winning two events in the National A. A. U. water championship here. Weissmuller who had been out of competition for several months, due to a strained heart muscle, led choice field in both the 100 yards senior national free style and the 50 yards

open free style and the 50 yards open free style events. He did not approach his own world marks, however, being content to win handily.

Albert Lea Nine Wins

Albert Lea, Aug. 25.—The crack All-Nations baseball team tasted its own medicine when the Albert Lea club team defeated that organization here 3 to 1. The game was one of the most exciting ever witnessed here and was attended by one of the largest crowds of fans.

Snap Into It, Son

Major General Robert Lee Bullard, commander of the Second Corps Area, takes the salute presented by his son, Private Charles K. Bullard, a member of the Citizens Military Training Camp at Plattsburgh, N. Y. Young Bullard is a rookie in company D, and is only 17.

STAR RUTH WINS 2:14 PACE IN BEMIDJI RACE

Bemidji, Aug. 25.—The greatest driving ever witnessed on the Bemidji track developed in the 2:14 pace, Thursday when it required six heats to determine a winner, Star

Ruth, owned by Ruth & Schroeder of Ellsworth, Wis., and driven by Schroeder, winning the race by taking the first, fourth and sixth heats, each time after a bad handicap on account of a bad break on the first turn. The purse developed into a split heat affair when Deck R. took the third heat after finishing third and fourth, respectively, in the first two heats.

George, owned and driven by John Bradford of Verdale, won the 2:20 pace in easy fashion by taking the second and third heats after finishing fourth in the first heat.

Cy Williams Ties Ruth's Mark of 32 Home Runs

Philadelphia, Aug. 25.—Cy Williams, centerfielder for the Philadelphia Nationals, hit his 32d home run of the season here in the seventh inning of the game with Chicago. Kauffmann was pitching and there was none on bases. He is now tied with Babe Ruth.

ALLEGED BURGLAR TAKEN IN ST. PAUL

(By United Press)
St. Paul, Aug. 25.—Harold B. Hanson, 21, was captured by police early this morning after being wounded in one leg. He is charged with having committed several burglaries, according to police.

Police said Hanson was employed in the hardware department of a large department store by day and performed as a burglar at night.

Sawyer to Continue as Physician For Coolidge

(By United Press)
Washington, Aug. 25.—Brig. Gen. Charles E. Sawyer will continue as personal physician to President Coolidge in the same capacity he acted in the same capacity he acted announced at the White House today. The White House announcement said that General Sawyer "will be free to serve Mrs. Harding in any way that may be desired."

GOOD ROADS ARE A BENEFIT TO ALL

The people are cognizant of the fact that improvement of the rural highways of the state rebounds to the common good of all and that what they invest in general good roads are an important factor in marketing facilities. They are an agency that brings city and country into closer contrast and better understanding each of the other. They widen the radius of pleasurable diversion by making distances less formidable. They attract to the state tourists and vacationists who leave behind them a great aggregate of money in the course of a season. They make the state a more attractive field for investors, particularly for settlers on farm lands. They bring comfort and satisfaction where before there were the opposite of these.—Minneapolis Tribune.

WASH YOUR KIDNEYS BY DRINKING WATER

If Your Back Hurts or Bladder Bothers, Also Take Some Salts

Flush your kidneys by drinking a quart of water each day, also take salts occasionally, says a noted authority, who tells us that too much rich food forms acids which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you may suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To help neutralize these irritating acids, to help cleanse the kidneys and flush off the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys; also to neutralize the acids in the system so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink. By all means have your physician examine your kidneys at least twice a year.

SPORTS

FANNING WITH ARRELL

By HENRY L. FARRELL
United Press Sports Editor

New York, Aug. 25.—New York's idea of a first-class sucker is a cow-puncher who dashes wildly around an arena on a pony, jumps from his mount to the back of a steer and wrestles the animal to the ground.

Sophisticated city birds also question the inclination that turns a man into a broncho-buster and a wild horse rider at the risk of life and limb for a prize of a few dollars.

During the recent rodeo, which Tex Austin promoted at the Yankee Stadium, the city-breds got a kick out of the demonstration of far western sports, but they couldn't figure where the percentage of the performers made it worth the while.

If the crowds knew what kind of money the champion riders and bull-doggers make a year out of their sport, there would be no doubts about the motives that inspired them to follow such a hazardous profession.

Some of the riders, and many of them, make from \$10,000 a year upwards, and the time they spend in actual competition is not much more than that of champion boxers.

Their time is divided mostly between the rodeos at Calgary, Pendleton, Cheyenne and Fort Worth, where the "classic" contests of their game are held. New York has taken so keenly to two of them that the country's biggest city may soon be a regular stop on the circuit. Champions at the big rodeos find plenty of work in the exhibition line also.

Mike Hastings, who holds the world's speed record for "bull-dogging," and his wife, Fox Hastings, a champion rider, made \$25,000 between them last year, it is understood.

Fox Hastings is a graduate of a California convent, and it might be considered unusual that she found herself following such a hazardous and rather unique calling.

"I married a cow-puncher, I guess that's the principal reason I am in the game," she said, when asked how she had been attracted to the profession. "Going around with Mike, I got to riding. I liked it, and here I am."

Weissmuller Wins Two Events in Comeback

Indianapolis, Ind., Aug. 25.—Showing the same form that won him the title as world's greatest swimmer, Johnny Weissmuller of Chicago celebrated his return to the sport by winning two events in the National A. A. U. water championship here. Weissmuller who had been out of competition for several months, due to a strained heart muscle, led choice field in both the 100 yards senior and the national free style and the 50 yards open free style events. He did not approach his own world marks, however, being content to win handily.

Albert Lea Nine Wins

Albert Lea, Aug. 25.—The crack All-Nations baseball team tasted its own medicine when the Albert Lea club team defeated that organization here 3 to 1. The game was one of the most exciting ever witnessed here and was attended by one of the largest crowds of fans.

Snap Into It, Son

Major General Robert Lee Bullard, commander of the Second Corps Area, takes the salute presented by his son, Private Charles K. Bullard, a member of the Citizens Military Training Camp at Plattsburgh, N. Y. Young Bullard is a rookie in company D, and is only 17.

STAR RUTH WINS 2:14 PACE IN BEMIDJI RACE

Bemidji, Aug. 25.—The greatest driving ever witnessed on the Bemidji track developed in the 2:14 pace, Thursday when it required six heats to determine a winner, Star

Ruth, owned by Ruth & Schroeder of Ellsworth, Wis., and driven by Schroeder, winning the race by taking the first, fourth and sixth heats, each time after a bad handicap on account of a bad break on the first turn. The purse developed into a split heat affair when Deck R. took the third heat after finishing third and fourth, respectively, in the first two heats.

George, owned and driven by John Bradford of Verdale, won the 2:20 pace in easy fashion by taking the second and third heats after finishing fourth in the first heat.

Cy Williams Ties Ruth's Mark of 32 Home Runs

Philadelphia, Aug. 25.—Cy Williams, centerfielder for the Philadelphia Nationals, hit his 32d home run of the season here in the seventh inning of the game with Chicago. Kauffmann was pitching and there was none on bases. He is now tied with Babe Ruth.

ALLEGED BURGLAR TAKEN IN ST. PAUL

(By United Press)
St. Paul, Aug. 25.—Harold B. Hanson, 21, was captured by police early this morning after being wounded in one leg. He is charged with having committed several burglaries, according to police.

Police said Hanson was employed in the hardware department of a large department store by day and performed as a burglar at night.

Sawyer to Continue as Physician For Coolidge

(By United Press)
Washington, Aug. 25.—Brig. Gen. Charles E. Sawyer will continue as personal physician to President Coolidge in the same capacity he acted in the same capacity he acted announced at the White House today. The White House announcement said that General Sawyer "will be free to serve Mrs. Harding in any way that may be desired."
